

Directions: Located on page 497 of your textbook is a chart of the Dynasties of China. While in the computer lab, you and your group will use the entire two class periods to do research on the internet and learn as much as you can about your Dynasty. (You may use this paper and any other blank paper to take notes) At the end of class, I will collect your papers and save them for a future date where we will be making posters. Be sure you have enough information to create an educational poster, including pictures! You will be presenting your poster to the class while you teach about your dynasty for about four minutes.
